

# Camp Rumbug Bush Camp & Walk Fact Sheet

Give your students a truly memorable Bush Camp & Walk experience at Camp Rumbug and enjoy sleeping under the stars in 200 acres of beautiful rainforest.

It's the perfect environment for an authentic outdoor learning experience. Bring students closer to nature and promote an appreciation of the natural world, while encouraging them to work together and discover more about themselves and the world around them.

It's ideal for students studying the VCE Outdoor and Environmental Studies who want to develop skills, knowledge and behaviours that promote safe and sustainable interaction with outdoor environments.

Booking your Bush Camp & Walk with PGL means you benefit from your very own PGL guide who looks after you and your students. They are your guide for the duration of the camp and ensure you have everything you need to get the most from each day.

Whether you've set specific objectives for your students or just want to use the time away to motivate and inspire, we deliver the right program for your group. And by leaving the hard work and planning to us, you can concentrate on having a great time with your students.

Activities such as Initiative Exercises, Navigation Challenges, Orienteering and Bridge Build are great for team building and help develop a range of skills, as your students make the most of the challenges and opportunities each activity presents.

You sleep in tents which you pitch when you get to your campsite in the evening. We provide all food, water and cooking equipment – you just need to prepare and cook the meals!

## A sample two night Bush Camp & Walk
