

Supplier ESG Resources

At PGL Beyond, we're committed to building a more sustainable world by acting progressively for the betterment of our colleagues, customers and communities.

As a valued partner, we want to support you in your journey to more effective Environmental and Social Governance (ESG) so we can work together in making positive changes to the way we operate, to better care for our places and planet.

Below are links you might find useful to support your ESG journey – these have assisted us in our research (and ambition) to become an accredited B Corp.

Please do not hesitate to get in touch with your PGL Beyond contact if we can provide any further assistance.

General Sustainability

- [The B Corp Movement in Australia and New Zealand](#)
- [Sustainability Checklist](#)
- [ecoBiz QLD](#) – a free program helping businesses reduce their energy, water, and waste usage, with workshops, resources and coaching.
- [Business Victoria: Sustainability](#)
- [Getting started with your ESG strategy](#) - Guidance on setting up an Environmental, Social and Governance (ESG) strategy
- [Register for your B Impact Assessment](#) - to identify, track, and learn about improvement opportunities and best practices over time

Supply chain resources

- [How to navigate sustainable supply chain management](#)
- [How to successfully engage your suppliers with sustainability](#)

Agricultural supply chain

- [Useful guidance and resources from the Sustainable Agriculture Initiative \(AUS\)](#)
- [Sustainable agriculture principles and practices](#)

Water

- [QLD: Creating a waterwise workplace](#)
- [VIC: Reduce water use](#) – resources and guides on how to cut your energy and water use and manage waste

Waste

- [Planet Ark](#) – a resource rich hub for all things related to recycling
- [Guidance on understanding recycling symbols](#)
- [How manufacturers can reduce waste](#)
- [Everything you need to know about Life Cycle Assessment \(LCA\)](#)

Climate

- [Climate solutions 101](#) – solution-based insights from global leaders in climate policy
- [The Greenhouse Gas Protocol Corporate Accounting and Reporting Standard](#) – requirements and guidance for organisations preparing a corporate-level GHG emissions inventory
- [Calculate the carbon footprint of your entire operation](#) – this will help you set realistic net-zero targets that align with your company and industry

Human rights and labour

- [Responsible Resourcing Tool](#) – to help you understand, identify, prevent and address any risks or harms to workers within your supply chain.
- [Recognising Forced Labour Risks in Global Supply Chains](#) – An insights report from Sedex, who provide tools, resources and services to support ESG outcomes
- [Register with Sedex](#) – share data about your business with customers quickly and easily, and access tools to help improve your sustainability performance

Biodiversity

- [Biodiversity: It's importance, influence and impact on Australian businesses](#)
- [Natural Capital Handbook CSIRO](#): a free resource for Australian businesses providing advice on how to report and account for their natural assets
- [5 ways businesses can implement the new global Biodiversity framework](#)

Sustainability communications

- [How to promote your sustainable business](#)
- [How to communicate your ESG performance and avoid 'greenwashing'](#)
- [Further information on why avoiding greenwashing is crucial for businesses](#)

Sustainability courses

- [An Introduction to the B Corp Movement](#) – a free course from B Lab
- [A range of free, open, educational resources from SDG Academy](#) – experts on sustainable development
